Employment Opportunity
Information Technology Developer - NOC 2171

Competition#: 4N18-039
Wage: $80,000 annually or commensurate with experience
Hours of Work: Permanent Full-time (40 hours per week)
Location: Whitehorse, Yukon
Closing Date: Until Filled

Air North, Yukon's Airline is a growing Airline based in Whitehorse, Yukon that offers its employees a top-tier benefits package that includes competitive salaries, extended health and dental, Group RRSP plans and extensive travel perks with various carriers hosted through MyID Travel.

Air North, Yukon's Airline has always taken pride in providing the most authentic Yukon hospitality experience to all its customers. In 2016 Air North, Yukon's Airline was named the second most-loved airline in the world. This is a testament to the dedication and hard work of Air North's employees and the loyalty of their customers. Air North has scheduled service between Whitehorse, Vancouver, Kelowna, Calgary, Edmonton, Ottawa, Yellowknife and Victoria (starting May 2018).

Reporting to the Information Technology (IT) Manager, the IT Developer will work closely with a small development team implementing both front and back end solutions. Being a team player is crucial to the success of Air North and as part of a small development team, you will be expected to bring your knowledge and expertise as well as respecting the knowledge and expertise of your team mates. Passionate about driving change through the application of new and existing technologies.

Would you describe yourself as having:
- Excellent oral and written communication skills
- Mid to Senior level developer with experience in a development shop using J2EE
- Knowledge of Unix and Unix scripting, JavaScript
- Experience with relational databases (Oracle, MS-SQL, My-SQL), SQL queries and considerable understanding of data structures and modeling
- Experience with stored procedures
- Experience writing reports, preferably using SSRS
- Works independently and is able to trouble shoot production issues with a minimum of supervision
- Writes code to a professional standard
- Adds value by understanding Air North's business and working with the business units to understand their needs and provide your expertise in helping them address those needs
- Most importantly, a good sense of humour and likes to have fun

Qualifications/Conditions of Employment:
- Degree or diploma in Computer Science
- Minimum 3 years of IT experience as a developer
- JSON and AJAX experience would be considered an asset
